MARITIME PAVILION

The ground domain isn't the only area where innovation is accelerating! Maritime technologies are making waves around the world. Captained by the AUVSI Maritime Advocacy Committee and its members, the Maritime Pavilion will feature the latest in surface and subsurface technologies.

XPONENTIAL 2023 provides a global platform to gain exposure, find new opportunities and partner with others to strengthen your offer. Three tools for maritime companies to get ahead:

MARITIME PAVILION

The Maritime Pavilion is a dedicated hub on the XPONENTIAL show floor for maritime companies to showcase unique solutions and cutting-edge technologies for application across the uncrewed and autonomous systems community.

ENTERPRISE AND GOVERNMENT SOLUTIONS SPEAKING OPPORTUNITY (EAGS)

Feature your customers on a panel you organize or a company representative talking about a challenge facing the industry and how your company has a solution. You control the content and format of the 45-minute session and receive a list of opt-in attendees who attended, contact info included. Benefits also include recognition as an official XPONENTIAL Sponsor. Limited number, learn more at www.xponential.org/sponsor.

Representing the views of the uncrewed systems and robotics community to elected officials, regulators, media, industry analysts, and other decision makers, influencers, and opinion leaders, AUVSI is committed to advocating globally for public policy that encourages the advancement and deployment of uncrewed technology.

In an effort to engage its membership in maritime advocacy initiatives AUVSI has organized the Maritime Advocacy Committee (MAC). The MAC sets the federal legislative and regulatory priorities for the association based on input and feedback from its membership. The committee develops advocacy goals and policy positions to enable all AUVSI members to speak with a unified voice on behalf of the UMS industry. Please contact Mike Smitsky mmsmitsky@auvsi.org to get involved.
